

## Mission Tennis Club Indoor Facility Update

Aug 12, 2021

Your Tennis Committee is please to provide the following update regarding a potential indoor facility at our club. In partnership with [Tennis Clubs of Canada](#), Mission Tennis Club will be submitting an expression of interest through the City of [Kelowna UPP process](#) to construct an indoor facility in DeHart Park adjacent to our current courts. Highlights of this conceptual proposal are:

- Expansion of the current courts 4, 5 and 6 to add an additional 2 tennis courts and cover with an inflated air structure during fall and winter months, resulting in a total of 5 indoor courts
- Addition of 4 pickle ball courts, which will also be covered during fall and winter months
- Tennis Clubs of Canada will be responsible for construction of the new courts and indoor structure and operation of the indoor facility during the fall and winter seasons
- The inflated air structure will be removed in the spring and summer months and Mission Tennis Club will include the additional courts as part of our regular outdoor season operation.
- Outdoor and indoor memberships will be completely separate. In other words, Mission Tennis Club members will have the choice to keep their outdoor membership as is and not participate in the indoor season if so desired. Conversely, we expect that Mission TC outdoor members will have an attractive option to extend their membership into the indoor season if desired.
- Potential membership costs and models are unknown at this time, however we expect minimal to no impact to outdoor membership pricing. Indoor membership pricing will of course be in addition to outdoor.

Note that this is simply a Phase 1 expression of interest proposal, which has the full support of your Tennis Committee. Should the city respond favourably to the initial submission, much more detail will be provided to membership throughout the resulting process with input and approval sought from members before any firm commitments are made.

Please [EMAIL](#) any questions or concerns to your Tennis Committee. We look forward to providing you with further updates as this process continues.
